OBJECTIVES

Motivated, detail-oriented, and adaptable professional with 1.5 years of experience in card payment systems. A collaborative and proactive team player with strong problem-solving and communication skills, seeking a Software Developer role to apply expertise in full-stack development and actively contribute to building innovative, efficient, user-centric applications.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, C, C++
- **Frameworks:** Bootstrap, Tailwind CSS, Node.js, Express.js, React.js
- **Database:** MySQL, MongoDB
- **Tools:** Linux, Git, RESTful API, VSCode

WORK EXPERIENCE

Card Application Consultant, FinTech Point

Nov 2023 - Mar 2025

- Conducted end-to-end PowerCARD V3.5, Visa, and Mastercard testing, contributing to the successful deployment of multiple card modules with minimal post-launch issues.
- Achieved 100% data accuracy during PowerCARD V3.5 SCU & ACB migration validation, facilitating smooth system transitions for client banks.
- Improved delivery timelines by 10% through effective testing, bug reporting and data migration.

PERSONAL PROJECTS

WarmStay, An Accommodation Listing and Discovery Platform

[Live Link](#) | [Github Link](#)

- Engineered a web application utilizing Node.js, Express, and EJS, for listing and discovering unique accommodations, featuring listing management, filtering, and sorting capabilities.
- Implemented user authentication and authorization, enabling users to create and manage their listings, as well as leave reviews for others.
- Integrated map functionality and image upload to enhance the user experience when searching and exploring listings.

OpenTerminal, A Technology-based Blogging Platform

[Live Link](#) | [Github Link](#)

- Developed a blogging application that enables users to create, edit, and publish blog posts with a smooth and interactive interface.
- executed features such as search functionality and truncation, with a scalable and efficient database schema for seamless data retrieval and rendering of blog posts.

ThinkVault, A Note Management Application

[Live Link](#) | [Github Link](#)

- Built a full-stack note management app with user authentication and authorization using sessions and cookies, ensuring secure access to user notes.
- Designed a responsive UI with note editing, deletion, and searching features.

EDUCATION

Bachelor of Science in Computer Science & Engineering

Feb 2018 - Oct 2023

Mymensingh Engineering College, affiliated with the University of Dhaka

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering, Object-Oriented Programming, Artificial Intelligence.
